READ THIS BEFORE ORDERING

I guarantee all stock sent out to be true to name and in good growing condition and will cheerfully replace, without any expense to patrons, any stock found to be otherwise. Any stock purchased, which does not prove satisfactory when received, may be returned collect and the purchase price will be promptly returned. If satisfied with my goods, tell your friends; if not, tell me and I will make it right. I want only satisfied customers.

Net cash before delivery; 25% deposit will hold orders for future delivery. Orders not fully paid at time of shipment will be sent C. O. D. for balance. No orders for less than \$1.00 accepted.

All orders shipped charges prepaid to any point reached by parcel post, safe delivery guaranteed. Local and Pacific coast shipments can be made at any time, and Eastern and Northern in the spring as soon as danger of freezing is past.

Five (5) bulbs at the ten (10) rate; twenty-five (25) at the hundred (100) rate and two hundred fifty (250) at the one thousand (1000) rate. For the 1,000 rate multiply the 100 rate by 9.

100 bulblets at the 1,000 rate; pints or half pints at the quart rate. 5,000 or 5 quarts of bulblets of one variety, or 10,000 or 10 quarts assorted varieties, 10% discount.

This is the only price list that I will issue this year, and I offer no more favorable terms, prices or discounts than herein set forth.

All stock is offered, and orders accepted, subject to prior sale. We do not substitute varieties except on request, but will send equal value in size of other than the size ordered if size ordered is out of stock, unless otherwise instructed.

Send me the names and addresses of your friends who grow Gladiolus and extra bulbs will be sent with your order. I grow over two hundred of the leading named varieties, and visitors are welcome to my gardens throughout the season.

Delphiniums a Specialty

The marvelous "WREXHAM" strain which so resembles the hollyhock, was originated in Wales, and first shown at the London Exhibition in 1921, where they were greatly admired for their beauty.

This strain has broad based tall spikes with large individual flower of a rich deep shade, which is the ambition of experienced growers.

After no end of effort on my part, say nothing of the expense, I was able to obtain the seed for my start of this famous strain from the originator, Mr. Watkins Samuel. My success has been so phenomenal that I am now able to supply my customers with this choice seed at the very reasonable price of \$1.00 per packet.

I can supply seed of the "HOODACRES" strain, which is a very fine and reliable variety, in liberal size packages at \$1.00 each.

The F. C. BURN'S strain is another fine variety, which has a beautiful silvery sheen, and can not be excelled for decorative purposes, and is in great demand by florists. Liberal size packages \$1.00 each.

DELPHINIUM CULTURE.

To insure the best success, seed should be sown in flats in the greenhouses as early as February 15th or March 1st, depending upon the climate, and when the plants have reached a height of $2\frac{1}{2}$ or 3 inches, set out in the garden in rows 3 to 4 feet apart and about 2 feet apart in the row on well-drained ground. We recommend bonemeal ONLY as fertilizer.

When the early flowering is over the plants should be cut back to about 6 or 8 inches in height and a second crop will follow, keeping up the flowering season until early frosts appear.
